

This Newsletter, a publication of **The American Physical Society, Forum on Education**, presents news of the Forum and articles on issues of physics education at all levels. Opinions expressed are those of the authors and do not necessarily reflect the views of the APS or of the Forum. Due to limitations of space, notices of events will be restricted to those considered by the editors to be national in scope. Contributed articles, commentary, and letters are subject to editing; notice will be given to the author if major editing is required. Contributions should be sent to any of the editors.
