

GROUP T-14: DETONATION THEORY AND APPLICATIONS

C. A. Forest, "Burning and Detonation," Los Alamos Scientific Laboratory report LA-7245 (July 1978).

C. A. Forest, "Shock Initiation of Explosives," Proc. Workshop on Deflagration-to-Detonation, Atlanta, Georgia, January 1978, to be published by Chemical Propulsion Information Agency.

B. G. Craig, J. N. Johnson, C. L. Mader, and G. F. Lederman, "Characterization of Two Commercial Explosives," Los Alamos Scientific Laboratory report LA-7140 (May 1978).

J. N. Johnson and D. R. Schmitz, "Incipient Joint Motion Due to Spherical Explosion," to be published in J. Eng. Mech. Dir. ASCE.

J. N. Johnson, R. K. Dropek, and J. B. Walsh, "The Influence of Pore Pressure on the Mechanical Properties of Kayenta Sandstone," to be published in J. Geophys. Res.

B. L. Holian and G. K. Straub, "Molecular Dynamics of Shock Waves in One-Dimensional Chains," to be published in Phys. Rev. B2.

B. L. Holian, "Predictions of the Solid Parahydrogen Phase Diagram," to be published in Phys. Rev. B1.

C. L. Mader and M. S. Shaw, "Users Manual for SIN: A One-Dimensional Hydrodynamic Code for Problems that Include Chemical Reactions, Elastic-Plastic Flow, Spalling, Phase Transitions, Melting, Forest Fire, Detonation Build-up, and Sesame Tabular Equation of State," Los Alamos Scientific Laboratory report LA-7264-M (September 1978).

R. Menikoff, R. C. Mjolsness, D. H. Sharp, and C. Zemach, "Unstable Normal Mode for Rayleigh-Taylor Instability in Viscous Fluids," Phys. Fluids 20, 2000 (1977).

R. Menikoff, R. C. Mjolsness, D. H. Sharp, C. Zemach, and B. J. Doyle, "The Initial Value Problem for Rayleigh-Taylor Instability of Viscous Fluids," to be published in Phys. Fluids.

R. Menikoff and D. H. Sharp, "A Derivation of the Virial Expansion with Application to Euclidean Quantum Field Theory," J. Math. Phys. 19, 135 (1978).

C. L. Mader, *Numerical Modeling of Detonations*, (University of California Press, in press).

C. L. Mader, "Chemistry of Build-Up of a Detonation Wave," Proc. Intern. Symp. on High Dynamic Pressures (1978).

Charles A. Forest, "Numerical Modeling of the Deflagration-to-Detonation Transition," Proc. 15th JANNAF Combustion Meeting (September 1978).

M. D. Slaughter, "Configuration Mixing of the 0^{-+} and 1^{-+} Ground and Radially Excited Mesons in a Nonperturbative Approach to Broken $SU(4)$," Bull. Am. Phys. Soc. 23, 23 (1978).

S. Oneda, J. S. Rno, and M. D. Slaughter, "Dynamical Constraints on the Couplings of Ground State Mesons—An Estimate of the $\phi \rightarrow \pi\gamma$ Decay," Phys. Rev. D 17, 1389 (1978).

M. D. Slaughter, "A Nonperturbative Study of the Vector and Pseudoscalar Mesons in Broken $SU(4)$," submitted to Phys. Rev.

M. D. Slaughter, "A Simple Broken-Symmetry Treatment of the Ground and Radially Excited State Mesons and the $\Delta^+ \rightarrow P\gamma$ Decay," Proc. Integrative Conf. on Group Theory and Mathematical Physics (VII Intern. Group Theory Colloquium), Austin, Texas, September 11-16, 1978.
